 REPORT NO.

25X1A

25X1X

1. The following figures, calculated to the nearest 100 metric tons, represent the amount of crude oil pumped from SMV oil fields during the months of September and October 1950 and do not indicate actual well production. During this period the Soviets shipped 9,500 tons of crude oil by rail and an estimated 5,000 tons by barge from Lobau to Czechoslovakia.

<u>SMV Field</u>	<u>Number of Tons of Crude Oil Delivered during September</u>	<u>Number of Tons of Crude Oil Delivered during October</u>
WAG	3,813	3,538
DEA I	8,700	
DEA II	7,800	15,500*
Mushberg	39,300	40,600
Matzen	73,500	72,800
E.P.G.	4,500	4,900
Van Sickle	4,800	5,200
Rohoel A.G.	Not known	Not known

2. The Soviets have abandoned six unsuccessful exploratory drillings and several Hohenrappersdorf wells which at one time produced about two tons of crude oil and 10,000 cubic meters of gas per day. All installations in the Hohenrappersdorf field are now being dismantled and will be transferred to Matzen in the near future.

25X1A \* **Comment:** The Soviet Oil Administration combined the DEA I and DEA II fields on 1 October 1950; these fields are now being managed as a single enterprise.

25X1A **Comment:** 25X1A

25X1A Addendum: the damages resulting from the recent outcroppings of natural gas at Matzen to be in the neighborhood of 1,500,000 schillings.

25X1A **CONFIDENTIAL**
